

We are pleased to recommend Hendricks Enterprises as a property management company. We have known them for approximately five years now and have had an ongoing successful beneficial relationship. We always like to work with a family based company and Mr. Hendricks and Ben Tubbs treat us like we are part of their family. They really understand what a client's needs are and go out of their way to make life easier for us.

Since they have taken over management of our two properties, we have felt free from the day to day hassles of managing and operating the properties with all their attendant headaches. Ben and his team must be doing a wonderful job since we have no tenant complaints or turnover so to speak. The main thing about our relationship is that we trust the company and the people for being honest and having high standards of integrity. We have never had any cause to complain, they have not given us a chance to do so.

If you are at a point of decision as to whether you should hire a management company to look after your properties, I would urge you to try Hendricks Enterprises. You will not regret the decision.
